BRIDE & GROOM

Photography has always been a passion for Fiona. However, it is only over the past 11 years that her love for it has grown to a professional level, watching her children grow through the lens. The vision has always been one of development, beauty and the miracle of life; pregnant mums, children, families, weddings and most of all - newborn babies.

Fiona's desire to capture precious moments of love and laughter has greatly influenced her style. Life is what keeps her passionate about this profession. Fiona's photography is foremost an art. A simple portrait-style picture is not adequate, it must be a moment in life, captured forever, expressions that only a mother can recognize - The image of herself in her child.

She allows her photos to speak for themselves and let them do so through an arrangement of colours, lighting and composition. Fiona is intrigued by the classic appeal that black and white photography projects, and the contrast of light it offers. If you decide to choose Fiona, you will not just get a regular snapshot, but a timeless cherished moment captured for eternity.
